

DEPARTMENT OF CHEMISTRY PROGRAMME OUTCOMES (PO)

1. UG (Chemistry): After completion of 3 years of UG programme-
Students have concept and knowledge of:-
 - i- Fundamentals and theories of chemistry.
 - ii- Carrying scientific experiments and analyse the results
 - iii- Keeping environment free from chemicals.

2. PG (Chemistry) After completion of 2 years of PG Programme-
 - i- Students understand major concepts in all disciplines of chemistry.
 - ii- They are able to carry out, record and analyse the result of chemical reactions.
 - iii- They are able to think methodically and independently.
 - iv- Understand key role of chemistry in making life easy.
 - v- Able to create awareness on impact of chemicals on society.
